

Iowa Premier Soccer League

League Director's Report

Match play for the Fall Season began August 29th and will end on November 8th. 310 teams entered the league from 29 clubs including 32 teams, playing cross league matches, from the Nebraska Soccer League. We have scheduled over 1150 matches at 32 locations.

Dyersville, EISA Black Select, FC Midwest, Muscatine SC and FC Nevada are participating for the first time.

Fall Challenges

As the league expands in numbers and locations, the logistics in scheduling is becoming more challenging. We are looking for solutions by adapting new software and communications. For example; reducing the hours it takes to put team information together by allowing team coordinators to enter data into our software program, restricting the number of requests for blackout dates & times and limiting the number of locations we use to better stack matches for officials. We will continue to look for software solutions that will help us produce an efficient schedule for all participants.

A recurring challenge is securing referees, although with the downturn in the economy we have seen some officials using the income from league matches to supplement their needs.

Club	08 Teams	09 Teams	Girls	U12G	Boys	U12B	Location
