Tryouts Guide

Per Iowa Soccer Member Rules, member clubs may begin **forming teams based upon ability/talent at the 11U age group.**

- These teams are classified as “select” teams due to the way in which they are formed – “selected” based upon an evaluation.
- To make an ability-based determination, many Iowa Soccer member clubs offer a process known as “tryouts” during the month of June. Tryouts provide the opportunity to observe and evaluate any player who has registered for a club’s tryout. Players may be current club members, or they may be interested in trying out at multiple clubs.
- Following the completion of tryouts, Iowa Soccer member clubs make “bid” determinations. A bid is an offer to join the club on an assigned team that is appropriate to the player’s ability. And if a club has determined there is not an appropriate team for the ability of the player, a bid is not offered.
- Being well-informed about a club, and by extension the experience your child will have, is vital in aligning your child to an experience that is the best fit. To that end, Iowa Soccer offers this resource to help parents/caregivers research and make informed decisions.

Club Research

Before registering for a tryout **research:**

Iowa Soccer Member clubs

- Are you seeking a community-based club, or are you willing to go outside your community?
- [Find club\(s\) in your area](#)

Club fees

- What is included in the fees, and what is not (are there additional expenses such as uniforms, travel, entry fees, etc...?)
- Does the club offer financial assistance?
- Once your complete financial commitment to the club is understood, is it within your family's budget?

Training and competitions commitment

- When, how often, and where does your child's age group train?
- What is the annual game and travel calendar/commitment?
